MEMORANDUM FOR: Mr. Walter Elder

1. This memorandum forwards the results of the COMIREX review of pertinent DCIDs carried out in response to your request (References A and B). The Committee completed its review of DCID 1/13--the COMIREX charter--at its 6 January meeting. No proposals for substantive change in the present provisions of DCID 1/13 were advanced by members. All agreed with my judgment that the current language of the Committee's charter continues to be adequate to enable effective support for the DCI in the discharge of his authorities and responsibilities concerning imagery intelligence in conformity with the provisions of Executive Order 12333.

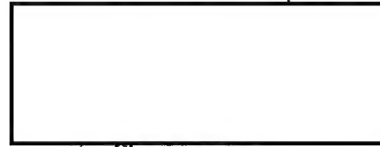

2. As a matter of editorial updating, the following adjustments in the present text of DCID 1/13 are recommended.

- a. Preamble, Line 1: Change citation of EO 11905 to read "Executive Order 12333"
- b. Footnote 1 : Update to read "effective 18 May 1976" vice 1 July 1967
- c. Paragraph 2c(3) : Change title "National Tasking Plan for the Exploitation of Multi-Sensor Imagery" to read "National Tasking Plan for Imagery Processing and Exploitation"

3. While not appropriate for action in this review, I do note that the NSCIDs (1, 3 and 8) cited in Paragraph 1, Line 3 are long outdated and relatively meaningless for current applications. Technically, however, these citations are correct as given--it is just that they add so little.
